Split Taxes Are Due On or Before June Thirtieth

Penalty and Interest on Delinquent Taxes Will Be Increased If Not Paid This Month

MANY ARE PAYING

Final Date For Making Considerable Saving on Taxes Will Be Wednesday, June 30

Split taxes must be paid on or before next Thursday, June 30th, states Tax Collector R. N. Barnett. Those who made the first payment in December must make the second payment in June.

Property owners who paid none of their 1936 taxes on or before January 30 of this year, will make quite a saving in making payment before the first of July. The rate of penalty is now 5%. The penalty increases to 8% on July 1st, and in addition 6% interest will be added, together with $1.00 costs for handling the delinquency records. The office of the tax assessor has been receiving a large number of payments this month from taxpayers who wish to save the added costs.

Bob Stuart Spoke Tuesday at Rotary Club Luncheon

Senator R. A. Stuart of Fort Worth, president of the Board of Regents for Teachers Colleges, spoke Tuesday at the Rotary Club luncheon. He was introduced by Joe Hill, who praised Mr. Stuart for his interest in education and his work for the teachers colleges of Texas. Mr. Stuart was given credit for much of the PWA work that had been done at these institutions.

The speaker outlined improvements that were being made in educational facilities in Texas, especially the teachers colleges. He believed that a new day was at hand for these institutions, with equality in salaries and facilities as to these colleges and the other institutions of the state.

The Panhandle spirit was praised in the demand for better trained teachers, and better facilities for the children.

The regents have set out on an educational program in order to convince the world of the worth of the institutions.

Doug Shirley expressed the appreciation of the club to Rev. Chas. L. Dickey, who leaves next week for his new pastorate at Paris.

Visitors present were: Bill Kerr, of Tucumcari; R. B. Fisher of Pampa; E. N. Sheppard of Austin; John Shanklin of Houston; Floyd Golden of Portales; J. D. Jackson of Alpine; R. A. Stuart of Ft. Worth; Ted Neelley, Arthur Osgood, Frank Storm, M. O. Carder, all of Amarillo; R. A. Terrill of Canyon.

G. H. Leseberg Brings First Load: Most of Farmers Will Not Start Before Next Week

The first load of wheat was received in Canyon yesterday afternoon. G. E. Leseberg brought the first load to the Farmers Elevator Co. $1.00 per bushel was paid for the wheat by W. H. McIntyre, manager of the Elevator. The test of the load was 61. Mr. Leseberg stated he probably would combine more wheat today.

Combines will start to cutting wheat in all part of Randall county in a few days.

Several farmers will attempt to start their machines this week, but most of them will wait until next week before attempting to cut wheat. Many farmers have reported that it may be two weeks before the principal part of the cutting may be started owing to so much green wheat.

Exceptionally fine wheat weather continued until Thursday when the temperature started mounting and hot weather has continued. The highest temperature has been 97 degrees. This has hurt some of the late wheat badly during the past week. Rust is reported in parts of the county.

On the whole, farmers seem to be pleased with the prospects of the crop. It is estimated that Randall county will produce from two to two and one-half times as much wheat as was raised last year. The crop will benefit many more people this year than last owing to the fact that good crops will be harvested in all sections of the county.

The weather has been much more favorable for wheat than usual during June. The hottest weather of the summer usually hits the first week in June, but this year coolness prevailed until last Thursday.

Final Plans Are Made For Eastern Tour By Students

Seven Cars and Drivers Have Been Engaged To Make Trip; Unusual Interest Shown

Final arrangements for the Eastern Historical and Industrial Tour are rapidly nearing completion. Seven cars with drivers have all ready been engaged, and interest being shown in the tour indicates that the maximum number of 60 persons will be registered before time for departure, according to Prof. Frank R. Phillips, who is in charge of the tour.

Tourists will leave here July 14 and return August 25. Estimated minimum cost for the trip is $150 which includes lodging, transportation, and meals. Persons who wish may receive college credit and renew teaching certificates. Examinations for the tourist will be held on the campus after the tour is completed.

Those who have engaged to take cars on the tour include: D. T. Travis, Post; L. A. Stowe, Stratford; Milton Todd, Clarendon; Spencer Whippo, Perryton; T. H. Robinson, Haskel; Jennie Sandy, Borger; and Enoch Darnell, Alpine.

T-Anchor farm boys who will make the trip and assist with the work are Orville Hays, Milton Crow, and Leo Baker. Dick Smith, son of Mrs. Agnes Smith and a student in W. T. High School, will make his third college sponsored trip and will assist with the work.

"We have equipment to accommodate only 60 people, and more money is on deposit now than ever has been 10 days before any previous tour," Prof. Phillips said.

The tour will visit historical shrines and industrial plants in Northern and Eastern United States and also in Canada. Many important universities are included on the itinerary as well as the noted Gary, Indiana school system and state departments of education.

A letter from Dr. Allan Ray DaFoe, famous doctor-guardian of the Dionne Quintuplets, was received Saturday by Frank R. Phillips, inviting the summer tourists to visit the "quints." Mr. Phillips states that from all indications the tourists will vote to change their route in order to view the famous-five.

Historian Believes This Nation Should Take Stand on Peace

Dr. Jim Dan Hill, president of the Superior State Teachers College, Superior, Wisconsin, spoke at the college Wednesday afternoon, his subject being "Neutrality for the United States."

Dr. Hill, who is a historian, has made a carefull study of neutrality as a problem of nations through hundreds of years. He has little confidence in the League of Nations or the World Court as instrumentalities of peace. He believes that the United States can keep out of any serious war by announcing to the nations what she will do, and what rights she will demand in return for her concessions, and then maintaining a strong navy to show that she means what she says.

Last night Dr. Hill spoke again at eight o'clock, his subject "Why History and Why Write It?" being in lighter vein.

He was accompanied to Canyon by Mrs. J. W. Walker of Plainview, who is his sister; Miss Miltia Hill, formerly a member of the College Art Department, is also his sister. The visitors were guests of President and Mrs. Hill while in Canyon.

Keeper of Cemetery Does Not Work During Early Morning

The officers of the Dreamland Cemetery Association have set the hours of Cecil Bosley, keeper of the Cemetery, to start at 10:00 o'clock in the morning and continue until 7:00 in the evening. These hours were adopted in order to allow Mr. Bosley the cool of the evening for watering.

Mrs. J. W. Kleinschmidt, president of the Association, asks that those who wish to give Mr. Bosley instructions regarding their lots to not go to the Cemetery until after 10:00 o'clock in the morning, nor later than 7:00 o'clock in the evening.

Those who wish to go to the Cemetery and work earlier in the morning may secure the keys to the tool house from Mr. Bosley the evening before, states Mrs. Kleinschmidt.

Postoffice Opening Set For July Third

Special Edition of the News Will Be Published On History of City and County

Plans are being developed for the dedication of the new postoffice building on the afternoon of July 3rd. Invitations have been sent to a number of prominent political leaders, including Senator Tom Connally, Congressman Marvin Jones and Karl A. Crowley, solicitor of the postal department. Invitations have been sent to all postmasters of this section.

Work on the building and grounds are rapidly being completed this week.

The city finished widening the street in front of the building on Tuesday.

Contractor Richter ran the sidewalk on the south of the building on Tuesday.

The decorative light stands are being placed, thus completing the front of the building.

The News is working on the special edition which will be published next Thursday. The number of pages in the edition has not been determined, but will be sufficiant to take care of a vast amount of historical data regarding Canyon and Randall county.

Kenneth Kendrick is assisting the regular News force in soliciting advertising for this edition. Business firms of Canyon will have an unusually fine opportunity to cover the trade territory in this edition. Several hundred extra copies will be printed and on sale for distribution. Those who wish wish to have copies of the next issue mailed out to friends must bring in their list of names by Thursday, July 1st.

Mrs. T. D. Coffee Died Friday Morning at Home of Son

Mrs. Louisa Victoria Coffee, age 87, died early Friday at the home of her son, D. M. Coffee in Amarillo. Mrs. Coffee had been in good health and before retiring had not complained of feeling ill. When a member of the family went to her room Friday morning, she was found dead in her bed. Physicians were of the opinion that she died about three o'clock in the morning.

The funeral services were held Sunday afternoon at the Canyon Methodist church of which she had been a member since 1891 when the family moved to Canyon. Rev. J. O. Quattlebaum was assisted in the service by Dr. J. Howard Williams. Pall bearers were: Frank Litle and Charles Chessir of Amarillo, G. G. Foster, Worth Jennings, John Guthrie and Oscar Smith of Canyon. Interment followed in Dreamland Cemetery by the side of her husband who died several years ago.

Mrs. Coffee was born in Corinth, Mississippi, on May 3, 1850. The family came by wagon train to Hill county in 1871 where she was married to Thomas Dean Coffee on Oct. 29, 1874. To this union eight children were born, six boys and two girls. Six children survive: D. M. Coffee, S. S. Coffee, and C. D. Coffee, all of Amarillo; O. W. Coffee and Mrs. R. L. Robeson, both of Bisbee, Ariz.; Mrs. J. M. Vetesk of Colorado Springs. One son died in infancy and another son, J. T. Coffee, died in December, 1935. She is survived also by nine grand children and six great grand children.

The family moved to Canyon in 1891 and Mr. Coffee engaged in operating a stage coach and freight wagons from Amarillo to the South Plains.

Mrs. Coffee was converted in childhood and joined the Methodist Church.

Grasshoppers Have Not Hit Randall as In Other Counties

Grasshoppers are doing much damage in the eastern counties of the Panhandle. The government is furnishing poison with which to fight the pests.

So far the hoppers have done little or no damage here.

Many people have reported thousands of small grasshoppers on their places, but so far they have done no particular damage to vegetation.

Clyde McElroy stated that while he found many hoppers in the weeds along fences, he did not believe that they are more numerous than usual for this time of year.

Strict Regulations To Be Adopted to Protect All Who Make Use of The Swimming Pool

The new $40,000 outdoor swimming pool was accepted Tuesday afternoon by the Board of Regents from the contractors and will be put into general use next week. A little work has not been completed on the pool, but this will be done by next week.

President J. A. Hill states that rules and regulations regarding the operation of the pool will be announced next week. While the pool is constructed for the benefit of the students, those of the public who will meet the requirements will be allowed the use of the pool. Charges will be made for the use of the pool, but these will be sufficiently low to enable all families to make use of the pool.

The new Buffalo Swimming Pool is the only outdoor pool on a college campus in Northwest Texas. Its sanitation is almost perfect by a filter and circulating system which keeps the bacteria count of the water in the pool very low and assures the swimmers protection from contagion.

Regents Are Here

R. A. Stuart of Fort Worth and J. D. Jackson of Abilene, members of the Board of Regents for Teachers Colleges, were here Tuesday to receive the pool.

Owing to the fact that painting was underway on the building, no ceremony was held at the pool, but the regents appeared at the chapel exercises.

Mr. Stuart, president of the Board, is an ex-student of W. T. and has been greatly interested in its development and the work that is being accomplished here.

Mr. Stuart recalled his interest in education in Texas when he was sent out under the Hogg Movement for Higher Education, and his services later in the State Senate, and now on the Board of Regents.

Work of Teachers Colleges

The speaker highly praised the work that had been accomplished by the teachers colleges of Texas. Standards had been raised, public

PANHANDLE MEMBER PRESS ASSOCIATION

Those who make their money in a nation, under the protection and benefits of that nation, should be willing to pay their part of the taxes necessary to support the government of the nation. All money that is made comes from the people at large. A merchant prince in Boston recently made the wise statement: "All the money which I have accumulated came from the pockets of those with whom I do business. Why should I not give part of it back to them in taxes?" A very wise statement, but too few are willing to abide by such a decision.

Thanks, many thanks to the people of Randall county for their suggestions regarding the special historical edition which will be published by The News next Thursday. We have received many old time pictures and articles regarding the early days in the county which will be used in this edition. Those who wish to send copies of the edition to friends in other places may reserve extra copies and have them mailed next Thursday. A large amount of interesting history will be printed in this edition, which will be of interest to people all over the state.

The total number of inmates in the state penitentiary in 1929 was 4,868. The number in 1936 was 6,050. The number of escapes in 1929 was 302, which was reduced to 72 in 1936. Only 13 made good their escape last year. The cost of operation per man in 1920 of $393.73 was reduced to $231.37 in 1936. 52.5% of the inmates attended the prison schools during 1936. This information is gained from the annual report of the institution. But after all, the system cost the taxpayers $3,010,636.71 in 1936—crime certainly does not pay the taxpayers of Texas.

Make your plans now to be in Canyon on the afternoon of July 3rd. The dedication of the new Federal Building in Canyon is a real event in the history of this community.

Plainview Herald: A feller by the name of Hogue has painted some pictures of desolate scenes and they have been printed in "Life." In mentioning them we're doing just what the publishers of that intriguing journal crave—giving publicity which will excite curiosity. . . . Well, those pictures are not worth spending much time looking at. There's one of them that shows a couple of spotted, dead cows in a sand drift in the corner of a fence. The barb wire looks as big as a sand line—bigger than a lariat. The picture of the dead cows isn't half good. Never saw a dead cow with folds in the skin. They always bloat and puff up. Maybe he meant these for cow mummies. . . . Anybody that can't find anything better to paint in Northwest Texas than dead cows is just about out of something to paint in a land that abounds with interesting subjects. . . . A skunk is a lot prettier. . . . As a matter of fact if it wasn't for the bad reputation he has the skunk might be used for muffs and neckpieces more than he is. Actually he's a pretty animal, if you ever take time to look him over. . . . If Hogue painted those dead cows "from life" he had to do a lot of hunting to find them. They are not typical. . . . If it's all right to make a little bet in Texas now we'll bet fifty dollars against a plugged dime that Mr. Hogue or anyone else can't take us to such a genuine scene in the Texas Panhandle in the next nine months, and we'll pay transportation there and back and sit on one of those cows, if he finds it, and eat a ham sandwich—and that's a powerful bet. It is no more a typical scene than a purported picture of a duststorm that was sold by the thousands several months ago. It was so unusual that even people here on the Plains bought them, so they could show about the fog of black dust that had followed on the heels of a saffron hued billow. Picture papers print the sensational and the unusual. If everybody gets to hollerin' like we are foolishly doing about "Life" printing those pictures "Life" will get a quarter of a million dollars of free publicity. . . . Just after a big rain we're bold to denounce anyone who says unkind things about the dust of Northwest Texas which is always exaggerated by people who talk so glibly about the dust bowl. But at that we don't feel any too secure, because the dust may be blowing before this paper gets into circulation. . . This dust bowl talk isn't doing Northwest Texas any good, at that. It's hurting us more than we imagine. . . . Isn't it strange how we howled about the geographies saying our country was a great American desert, and as soon as the gravy train started running to save the dust bowl from Mother Nature's inroad, we got to clamoring that we were in the dust bowl so that we could get some more federal checks? . . . For chamber of commerce purposes we don't want to be in the dust bowl. For getting our slice of the federal pie we want to be in it and submit facts and figures to prove that we are. . . . This dust business is funny that way.

THIS RELIEF TURNED DOWN

Wichita Record News: The Federal Government has brought up and rendered tax-exempt so much land in four East Texas counties that the rest can't pay the bill in taxation for bond issues, schools and county costs.

A bill to remit state taxes to support of the counties has been vetoed by Governor Allred. His veto proclamation contained this paragraph:

"In conference with people from some of these counties, I have suggested that possibly there should be a consolidation of counties and a resulting decrease in the cost of government. I have been told without exception that the people of the affected district would not vote for such consolidation."

He then declared if they were unwilling to take such a step, or to "make sacrifices themselves" he was unwilling for the state to prolong the present situation by donations of taxes with no strings to the gift.

Even without the threat of bankruptcy before them, good judgment and sound economy would permit reducing the number of local government setups by a hundred or more.

Of course, that would eliminate 1,000 office holders. It would give the public schools some courthouse buildings, and save new bond issues. Even the counties without taxable values left refuse to stop carrying this needless load of local tax absorbers.

What can be done about it?

LAND OF OPPORTUNITY

Paducah Post: It's not unusual to hear the growing boy complain of a lack of opportunity in this country, and that a fellow has to have money or "a pull" to get on in the world. Parents of boys who make such statements now have an excellent chance to disabuse their minds of such belief.

Point out to them the case of William Knudsen, who was chosen president of the General Motors Knudsen just a few weeks ago. Knudsen came to this country 30 years ago, a poor emigrant boy, with but $30 in his pocket and not an acquaintance in the entire United States. But he had the determination to make something of himself—and the perservance to stick by that resolve. He started in as an errand boy, earning just enough each week to pay for his board and clothes. He spent his leisure hours studying in free night schools and reading in free libraries. Today he is at the top.

America is still the land of opportunity, and this latest evidence of that fact should be pointed out to every boy who feels that it's not. There is still a chance for success awaiting any boy who is honestly determined to work for it, and willing to put the best of his life in whatever he sets out to do. But each must work out his own problems. Success is to be gained in no other way. There is always room in America for more Knudsens.

ADVERTISING SCHEMES

Memphis Democrat: We have noted in several newspapers over the Panhandle the last few weeks that a number of fake advertising schemes are being "cooked up" to part the small-town merchant and business man from a few of his hard-earned dollars.

Every time such a scheme is brought to our attention, we sit up and take notice, for we are anxious to kill such schemes and to protect the business man. Not only do we wish to protect him from the unethical and valueless, and sometimes unlawful, advertising schemes, but we wish to see him save money and prosper. This is not wholly an unselfish attitude on our part, for every worthwhile weekly newspaper finds prosperity in keeping with the prosperity of the business men, merchants, farmers, and citizens which it serves.

A number of small cities over the Panhandle have boards which pass on advertising ideas before the solicitors are allowed to contact the local merchants. The solicitor who does not have a statement from the board does not get far with his scheme. This seems to us a sensible manner to handle this situation.

SPEAKERSHIP FOR THE PANHANDLE

Claude News: Voters of the Panhandle have recognized for many, many years, just how hard it is for a candidate from this section to be elected governor of Texas—or to any other high office. However, at the present time it appears that Hon. Bob Alexander of Childress is the leading candidate for the Speakership of the House of Representatives in the next session of the legislature.

A letter from Hon. Eugene Worley, our own representative, says that the entire Panhandle delegation in the House is solidly behind Bob Alexander for the coveted post, and he expresses confidence in the chances of victory.

It has been the pleasure of this writer to know Bob Alexander rather intimately in the past few years, and know him to be a hard-working, straight-thinking representative of the Panhandle's interests, and nothing would please The News better than to see him elevated to this important office.

If we cannot elect a man to the governorship of Texas, maybe we can win the Speakership in the candidacy of Bob Alexander.

It's a long way from any dairy farm in America to Chiengmai, Siam.

By railroad and steamer and pack train the distance is more than 14,000 miles. Yet products from American dairy farms are used in Siam. Each year millions of pounds are bought and used in remote places throughout the world.

In 1857 Gail Borden's "canned" milk first opened the way for world-wide selling of dairy products. Foreign outlets for American milk are the result of modern sales and research pioneering.

Every million pounds of milk produced that finds a market in foreign lands, further supports the flow of milk money back to the farms of America.

Everyone Profits When You Spend Your Money in CANYON

Don't let your dollar become a "Bo"! Keep it at home.

There is a difference in dollars. There is the "tramp" dollar—the dollar that is spent away from home. Then there is the home dollar with its home circulation—with home benefits, home profits. Though both of these dollars are marked One Hundred Cents, the home dollar continues to multiply itself—at home—for here community interests are mutual. The success of Canyon contributes to the success of everybody in it. A prosperous city rests on individual prosperity.

Not so with the "Tramp" dollar—once spent it is gone forever. The Advantage to you of spending your dollar at home is greater than the tramp dollar can possibly buy.

There is a big truth in this worth your serious thought. It pays to trade at home!

Ruth LaFon-Harold Shanklin Wedding Solemonized Monday

The lawn of the ranch home of Mr. and Mrs. Hugh Currie, east of Canyon was chosen as the setting when Miss Ruth LaFon of Clarendon became the bride of Harold Shanklin, formerly of Canyon, Monday evening.

The bridal party reached an improvised arch covered with greenery, roses and baby breath through an aisle marked off by baskets of vari-colored flowers joined with streamers of blue and white ribbon.

Preceding the ceremony, Mrs. Gene Seastrand of Pampa, sister of the groom, accompanied by her husband at the piano, sang "At Dawning," and "I Love You Truly."

Plays Wedding March

As Mr. Seastrand played Mendelssohn's Wedding March, the groomsmen, Davis Hill of White Deer, cousin of the groom, and George Downs of Odessa, led the wedding procession. The groom was attended by his brother-in-law, Ira Jenkins of Houston.

When these had taken their places at the left of the arch, Bobbie Jo LaFon, young sister of the bride, entered. She was dressed in pink and carried an arm bouquet of blue cornflowers and fern. She was followed by the bridesmaids, Mrs. Seastrand, dressed in green marquisette with a bouquet of peach colored gladiolas, and Miss Virginia Bull of Amarillo, who wore peach colored marquisette and carried a bouquet of lavender gladiolas.

Mrs. Hugh Currie, sister of the bride, was matron of honor. She was dressed in Alice blue marquisette and carried an arm bouquet of yellow gladiolas.

The bride entered on the arm of her father. She was dressed in white satin with finger tip veil and carried a bouquet of gardenias and lilies of the valley.

The ceremony was performed by the Rev. Charles L. Dickey, pastor of the Canyon Presbyterian church.

Cuts Wedding Cake

Mrs. Lemore Hill of Amarillo, cousin of the groom, cut the beautiful three-tiered wedding cake which was served with punch to several hundred guests. Mrs. Davis Hill, cousin of the groom, Mrs. Lynn Pope, of Lubbock, sister of the bride, Mrs. Clyde Doughty of Amarillo, and Mrs. Ira Jenkins, sister of the groom, assisted in serving.

Dr. Bob Neblett, Larry Holman, Clyde Doughty, and Lowell LaFon, brother of the bride, received the guests.

Mrs. Shanklin, the daughter of Mr. and Mrs. J. R. LaFon of Clarendon, is a graduate of West Texas State Teachers College, and has taught five years in the Amarillo public schools.

Mr. Shanklin, the son of Mr. and Mrs. J. W. Shanklin of Houston, attended West Texas State Teachers College and Leland Stanford University, Calif., receiving his degree from the latter institution. He is a member of Sigma Alpha Epsilon fraternity and of the National Society of Engineers.

The young couple will be at home in Channing where Mr. Shanklin holds a position with the Soil Conservation Service.

Are Honored at Anniversary Dinner

Among the prenuptial affairs honoring Mr. and Mrs. Shanklin was an anniversary dinner given by Mrs. Shanklin's aunt, Mrs. J. A. Hill, Saturday, June 12.

Hill of Canyon were observing their thirty-fourth year, Mr. and Mrs. Ira Jenkins of Houston, their tenth, and Mr. and Mrs. Lemore Hill of Amarillo, their first.

Other guests attending were Mr. and Mrs. Gene Seastrand of Pampa, Mr. and Mrs. J. W. Shanklin of Houston, and Mr. and Mrs. Davis Hill of White Deer.

LINOLEUM APPROVED AS WALL COVERING

"Linoleum makes an excellent wall covering for the kitchen," Miss Dozier told the Park H. D. club at the home of Mrs. Flynn Winters Thursday.

Members present were: Mrs. Leonard Winters, Mrs. Frank Simon, Mrs. Ivan Pitt, Mrs. O. E. Sherer, Mrs. Jas. E. Park, Mrs. Owen Turpin, Mrs. James Eddie Park, Mrs. W. E. WESTSIDE CLUB CELEBRATES FIFTH BIRTHDAY

Westside Home Demonstration club celebrated its fifth birthday anniversary at the home of Mrs. A. N. Burgan Friday.

A light, cheerful atmosphere in a kitchen is often dependent on the finish and condition of the floors, walls and woodwork, said Miss Allie Dozier in her discussion on the backgrounds of kitchens. A washable paper or finish for the walls, and a semi-gloss interior paint for the woodwork are the most economical and easiest to keep of interior finishes. Linoleum is a bright, easy to clean, floor covering.

During the recreation hour music was furnished by Miss Kate Donnell.

At the noon hour a delicious covered dish luncheon was served to the following visitors: Mrs. E. M. Dozier of Forney, Mrs. Dee Burgan of Tyler, Miss Ruth Hager of Wichita Falls, Mary Katherine Wirt, Allie Dozier, and Mr. Burgan.

Club members present were: Mrs. B. A. Burrus, Mrs. Tony Burrus, Mrs. Joe Baber, Mrs. E. N. Zachery, Mrs. L. D. Winn, Mrs. Joe Tucek, Mrs. Lena Tucek, Mrs. Wm. Ash, Mrs. J. S. Slate, Mrs. J. M. Carruth, Mrs. J. A. Smith, Mrs. John Thurber, Mrs. J. W. Bourn, Mrs. Ed Bourn, Mrs. W. C. Roberts, Mrs. J. J. Wright, Mrs. F. E. Stockhaus, Miss Kitty Burrus, and the hostess, Mrs. Burgan.

The next meeting of the club will be with Mrs. C. L. Gordon-Cummings on July 2.

LAKESIDE CLUB MEETS WITH MRS. GARRETT

The Lakeside Home Demonstration club met with Mrs. Frank Garrett, Wednesday afternoon, June 16.

Miss Dozier discussed wall and floor finishings for the kitchen. Because of illness only a few members were present.

Ralph Club Women Complete H. D. Projects

Garden and kitchen demonstrators in the Ralph Home Demonstration Club who have been busy on special projects report that their work is completed.

Mrs. S. S. Howell, garden demonstrator, reports that she has had success in raising garden plants in a hot bed. This year she has raised 500 tomato plants, 300 cabbage plants and 100 sweet pepper plants.

She reports that she has given approximately 700 of these plants away. Purchase of these plants would have amounted to about $4. By raising them, she had only the cost of the seeds, which was about 30 cents.

Remodels Kitchen

"I have enjoyed remodeling my kitchen very much," said Mrs. J. V. Williams in speaking of her kitchen demonstration. "It has been hard work, but now that it is almost completed, I realize that the inconveniences of remodeling cannot compare with the pleasure of having a new kitchen to work in."

In the work done at the Williams home, a large pantry was diminished in size so that a window formerly in the pantry would be in the kitchen. One narrow shelf was added to the pantry for spices.

A small window in the kitchen was substituted for a large window, and the sink, which had formerly occupied a corner of the room, was placed under the small window. A cabinet was then built around the sink and the water was piped out of the house.

A corner cupboard was constructed by the large window and the dining table and chairs were refinished and placed by this cupboard, making a dinette.

Shelves in the pantry, cabinet and cupboard were painted ivory so they could more easily be kept clean. Dark varnished woodwork in the kitchen was painted ivory and the ceiling of the room, which formerly had been varnished also, was papered and the upper part of the walls were papered. Oil cloth was hung half-way up each wall.

Mrs. Williams varnished and waxed the linoleum already laid in the kitchen and put new linoleum in the dinette area. New curtains were hung at the windows and a new air-conditioned ice box was installed, the one piece of new furniture added.

No new lumber was purchased for the remodeling as the materials from the old cabinet and cupboards were used. Most of the work was done by the family. The total expenditure was only $41.24 and and only $6.50 of this was paid for labor done.

POTATO PLANTING DISCUSSED BY CLUB

The first of July is the time to plant potatoes in order for them to be matured by Fall," stated Mrs. J. B. Knox of the Sunny Hill H. D. Club at a meeting of that organization with Mrs. S. L. Robinson Wednesday, June 16.

"Allow the small new potatoes to dry for several days before planting," she advised. "The ones too small for cooking make good seed."

Mrs. Knox was elected delegate to the A. & M. Short Course to be held in August.

Refreshments were served to the following: Mrs. A. E. Wise, Mrs. R. B. Gist, Mrs. Lee Jennings, Mrs. Henry Ratjen, Mrs. Tyson Hankins, Mrs. J. B. Knox, Mrs. Otto Lehnick, Mrs. Carol Bray, Mrs. R. B. Elliott, Mrs. Lois More-Man, Mrs. Glenn Dowlen, and Mrs. Robinson.

Guests, upon arriving, signed the bride's book and were shown into the living room. Pink and blue colors were featured in the bowls of larkspur and baby's breath which formed a setting for the attractively decorated table placed in the center of the room. Ribbons of pink and green cellophane hung from a large circular ceiling piece, reaching almost to the table where the gift packages for the honoree had been arranged.

At the serving hour the table was laid with a lace cloth over pink and green cellophane and centered with a wedding cake placed before a background of flowers. White tapers burned at each side of the cake. The cake was cut and served with ice cream and pink and green mints.

FOR DEFENSE, $3 PER CAPITA

There currently is some howling over the cost of maintaining our army and navy. This year's budgets were the greatest on record in peace time, and congress has been criticized for overliberality.

However, an Associated Press study shows that Americans get off very easy in military costs. The per capita in this country is only $3, or 3.2 percent of the entire national budget. The Russian per capita is $23.34, or 23 percent of the total budget. In Great Britain the per capita cost of maintaining national defense is $19.30 or 18.8 percent of the budget. France gets of with $17.40, Italy's is $9.30, and Japan's $4.80. Cheap regimented labor in the latter two countries probably explains the lower costs.

No figures are available for Germany, but Hitler's country is believed to be spending about the same per capita as France.

The American taxpayer has no occasion for alarm as long as national defense is costing only $3 for every man, woman and child in the country or 3.2 percent of the budget. Indeed, a great many people will wonder if in view of world conditions we are spending enough money to insure adequate national defense.

THE BORDEN COMPANY

Wholesale and Retail Manufacturers of Borden's Quality Ice Cream and Dairy Products

Located at 609 Grant Street, Amarillo. Telephone 8271.

With the development of the ice cream industry from its infancy only a few years ago, there have come many and varied changes. The contest for supremacy was first developed along the line of furnishing ice cream of any old kind, just so it was sold at a cheap price. This era has passed away and the manager of this firm is largely instrumental for this change in policy in this part of the state.

Realizing that the public taste has been developed to such an extent that it has become epicurean relative to ice cream, they set about the establishment of an institution that was thoroughly modern and in keeping with the demands of the day. They purchased and installed the very latest of equipment for the correct manufacture and freezing of ice cream and organized their factory along the most sanitary lines. With this foundation, they purchased only the very purest of ingredients and consequently their product is the best that can be secured on the market. This ice cream is sold in seal tight containers and every precaution is taken for its richness, purity and safety of delivery so that whether you buy it at your favorite grill or in a wholesale quantity you are assured that it will always be found in the best of condition.

They transact a wholesale business and render their customers the best of service.

We recommend him highly upon the class of service he renders the people of this section.

Montgomery-Ward & Co.

When you think of bargains, think first of Wards

Their modern department store is located at 708 Polk Street, in Amarillo, telephone 21217.

The coming to Amarillo of Montgomery-Ward and Co., was a milestone in the city's progress and marked a new day in the buying methods of the people of this section. Prior to the advent of Montgomery-Ward Store, merchandising had been on a credit basis with high prices and limited stock prevailing. But Montgomery-Ward remedied both these conditions. Through its system of mass buying for its many stores, the prices for merchandise which had hitherto prevailed appeared fantastic in comparison, and the variety offered by this firm and the scope of its offerings were such that it was no longer felt necessary to visit larger cities or patronize out of town concerns.

Montgomery-Ward is noted over the country for these business policies—large assortments of merchandise of the highest quality from which to choose, at prices far below those prevailing in the average store.

The entire family may be outfitted at this store with the utmost economy while conceding nothing to quality or style. If any article comes from Montgomery-Ward and Co., it is correct in every particular and strictly in style. No old, left over or shop worn goods are kept on hand.

You will find a most pleasing service at this store. From the moment you enter the door, your every wish will be anticipated by an eager sales force and to please you, will instantly become the dominant purpose of this large establishment. If you are not a patron of this store you are hereby extended a cordial invitation to pay them a call when you next visit Amarillo and you will find the place you have been looking for in which to make future purchases with the utmost assurance.

The editor of this series of reviews commend them upon the metropolitan services they are rendering the people of West Texas.

At this popular cafe one comes in contact with real high class cooking, the kind that is practiced by the mothers and daughters of the best families of the country, and one mission that this place is performing is the preserving of this art in the public life of the period.

Here you will find well cooked food wholesome and deliciously appetizing.

The service is equally satisfactory, whether your order be large or small and will be made to feel that your trade is desired and appreciated by the management. There is no more attractively furnished place in this part of the state than this one, and there is none that has attained a greater measure of popularity. There is none in which the service and courses are more pleasingly satisfactory. Afternoon and evening auto parties of people from this section in town on business will find that a pleasing place to complete the pleasure of the day.

This funeral home while striving for greater efficiency in their special field of endeavor has been keen to recognize the value of having equipment designed to meet the demands for quiet dignified, and unostentatious funerals, hence they have equipped their business with such motor vehicles as convey an impression of comfort, refinement and luxury.

One of the more modern conveniences of this modernly equipped Funeral Home is the complete Air Conditioning System recently installed. No matter how torrid the weather through the summer days, the chapel, family rooms and building throughout is comfortably cool.

An additional service is afforded families through the protective policies of the Blackburn-Shaw Burial Association. Operating under the Texas Statute providing protection not to exceed One Hundred fifty dollars to each policy holder, the Association has grown to be one of the largest in the United States. More than fifteen thousand persons of all ages constitute the membership, affording protection of more than a million dollars to families of the Panhandle.

In considering the fact that the affairs of this business are directed by men of the highest standing in their profession, and held in the highest esteem in this community, we predict for them a future that is fraught with bright possibilities and brilliant achievement giving to us a funeral home and undertaking service of which we may be justly proud.

It matters not whether your desires are for the most elaborate or the most humble origin, they are in a position to supply you at once and are always willing to advise in matters that seem so confusing and to direct you in a spirit of friendship and brotherly love rather than as a business man to a customer they realize that in no way can they hope to fulfill the demands of a modern day public.

Located on West Wolflin Ave. Telephone 8640. They specialize in horse training and gaiting.

If you are interested in horseback riding you will find this is one of the very best riding schools and one that is aiding the public in the pursuit of outdoor sports and recreations.

In this age of indoor life and when people do not exercise properly it is necessary for the good of the race and its onward progress for people to take proper exercise so that the race will not become weakened and tired out. The only way to do this is to engage in a sport like riding which offers interest and pleasure as well as exercise in the great outdoors and in man's natural habit.

Especially should children be taught to ride early and they will not be afraid of horses if they are broken in on trained horses and ponies. These mounts are safe and well trained, and parents can feel absolutely safe in letting their children come to this riding school.

They offer excellent courses in riding and teach not only the elementary principles of the sport but turn out finished riders.

They have an excellent stable of horses and can can furnish you with any kind of mount you desire. These horses are all trained and people experience little trouble in handling them. The horses are equipped with saddles and bridles that are attractive and when you mount in your riding habit you will present a picture that would be worth-while snapping.

SOUTHERN FINANCE CORPORATION

Paul H. Chaney Mrs. Mary Montgomery
Personal Loans in Emergency—No Red Tape

Located in room 806, 8th floor in the Fiske M. & P. Building in Amarillo, telephone 4550.

If you have been wondering how to finance that vacation trip, visit this popular loan office and they will be of much assistance to you.

But few men have known the time in their lives when they did not need a quick loan to meet an emergency. These times seem to come during the days when an individual is struggling financially. Few situations are more embarrassing and more trying than when one needs money and it is not available. Perhaps you lived in a strange community at the time. The bank didn't "know" you. The only recourse is to go to some friend—and few of them are accommodating at that time.

It was to meet needs like this arising every day in this and in every other community that this confidential loan company was organized. They felt that reliable people could be saved much embarrassment and inconvenience by the establishment of such a loan service. The result of this was the organization of the Southern Finance Corporation by Mrs. Mary Montgomery and Mr. Paul H. Chaney in whom the people can place every confidence.

It is a confidential, dignified transaction. You need not humiliate yourself by going to a friend and admitting that you are in need.

A loan service such as this one is a real asset to any community. Its success, of course, is due to the high character and the financial ability of the men and women who direct its course of affairs.

The business is operated under the state banking laws, and provides a place where honest people can borrow up to fifty dollars ($50.00) and have as much as three months to repay on weekly, bi-weekly, or monthly payments at legal rates of interest. We wish to refer them to all of our readers of this review.

Trouble Broke the Day He Took Office, but Gov. Murphy Likes His Job!

LANSING, Mich.—A slender, bushy-eyebrowed young man sits in the gubernatorial chair here these days, convinced that his job is the toughest of any governor's. But he likes it!

Consider the situation.

Gov. Frank Murphy's troubles began the day he took office, last Jan. 1. He left the statehouse where he had taken the oath of office and plunged immediately into the maelstrom of the General Motors strike. And he settled it, after one of the most tense periods in American industrial life.

Came succeeding days in the labor picture, bringing new strikes, new violence in Michigan. Governor Murphy was on hand to iron them out. Finally, came the sweeping steel strike and with it bitter battles within Michigan, as well as within seven other states. Again Governor Murphy was on hand to meet a crucial situation. Certainly no governor has experienced such tremendous problems in such swift succession.

And all this, of course, came in addition to the ordinary duties of a governor. While Governor Murphy went hours at a time, without sleep, to effect some vital mediation, the Michigan state legislature was in session, itself a commanding problem. But Murphy managed to handle those duties, too, somehow, introducing some significant reforms in Michigan law.

* * *

WHAT is the story then of Frank Murphy? What is the background of this dynamic young governor who at 43 has already been boomed by Midwestern Democrats as a possible successor to President Roosevelt?

Frank Murphy was born at Harbor Beach, Mich., of a father who was not only Irish but Fenian. He grew up hearing factory whistles drom dawn to dusk and he learned early to resent those long hours, though they little affected him.

The son of an attorney, young Frank graduated from the Michigan Law School in 1914. When war came he joined the A. E. F. And after the war he was one of a group of young officers selected for university training abroad. Completing this he returned to the United States, took a job as a junior law clerk and eked out a meager salary teaching English in Detroit night schools. Subsequently he became instructor in law at the University of Detroit.

Only one interlude came in this early formative period. That was when Woodrow Wilson named Murphy special United States attorney to handle war fraud cases. And so successful was this young attorney, at 27, that he sent three men to jail—the only ones convicted for profiteering.

That record made Murphy famous; his career was launched.

And in 1923 he was elected judge of the Detroit Recorder's Court. Immediately he set about reforming judicial procedure, organizing a bonding bureau, calling in psychiatrists to advise about prisoners, calling experts to his assistance in passing sentence. Here was new kind of a judge.

Then, in 1930, came Detroit's bitter mayoralty scandal. Its mayor was recalled and Murphy was drafted by the liberals to run for the office. Characteristically, Murphy accepted, stipulating that no one must contribute more than $1 to his campaign. He called himself a "radical" but he got the job! In fact, he was swept into office.

And on Frank Murphy's official doorstep rested the then crucial unemployment problem. Promptly he acted, creating an unemployment committee to register families and find jobs, enlarging the public welfare bureau for relief, cutting other city expenditures to meet the load. That was a herculean task and his reward was re-election in 1932.

Then the President stepped in, named Murphy governor general of the Philippines. So successful was Murphy in that position that the islanders opposed his withdrawal to run for the governorship of Michigan. Murphy ran to help the Democratic cause in a key state. And in this he was successful.

Governor Murphy in characteristic moods—top photo and left, intent on some immediate problem. And above, the cordial executive when the pressure is relieved.

* * *

SO now he is governor—the most harassed governor in America. But he's meeting the challenge. Already there's talk that he may be appointed to the President's cabinet, probably as secretary of labor. Hitherto he has resigned every important public office he has held to take a more important one.

Unmarried, quiet, studious, seriously intent on his job, Governor Murphy brings to his difficult post a rich background. He is extremely well read in constitutional law, one of his chief loves.

He is not a back-slapper. He is neat but not fastidious. His complexion and his thinning hair are reddish. He has piercing eyes under bushy eyebrows. His face is the key to his character, with which his job as governor has made America familiar.

Budge, Mako, Grant—It Looks as If These Three Would Bring Back the Davis Cup

BY IRVING DIX

AMERICA'S accent-on-youth program in the tennis world is paying dividends and the dividends are expected to be enough to get the Davis Cup out of hock.

The utter rout of the crippled but strong Australian squad has raised U. S. hopes of regaining world supremacy higher than since 1927, when Bill Tilden finally bowed to the years and the cup left these shores.

Some observers, of course, had expected the Americans to overcome the Australians who conquered them last year, but none looked for such a complete triumph. Loss of Adrian Quist, No. 1 Aussie, undoubtedly weakened the boys from down under, but even with Quist in there the Americans would have won. With those dashing Three Musketeers — flaming Don Budge, sturdy Gene Mako, and acrobatic Bitsy Grant—playing the game to the hilt, Quist might very well have been routed along with his teammates.

* * *

THIS year's U. S. Davis Cup team is improved all along the route.

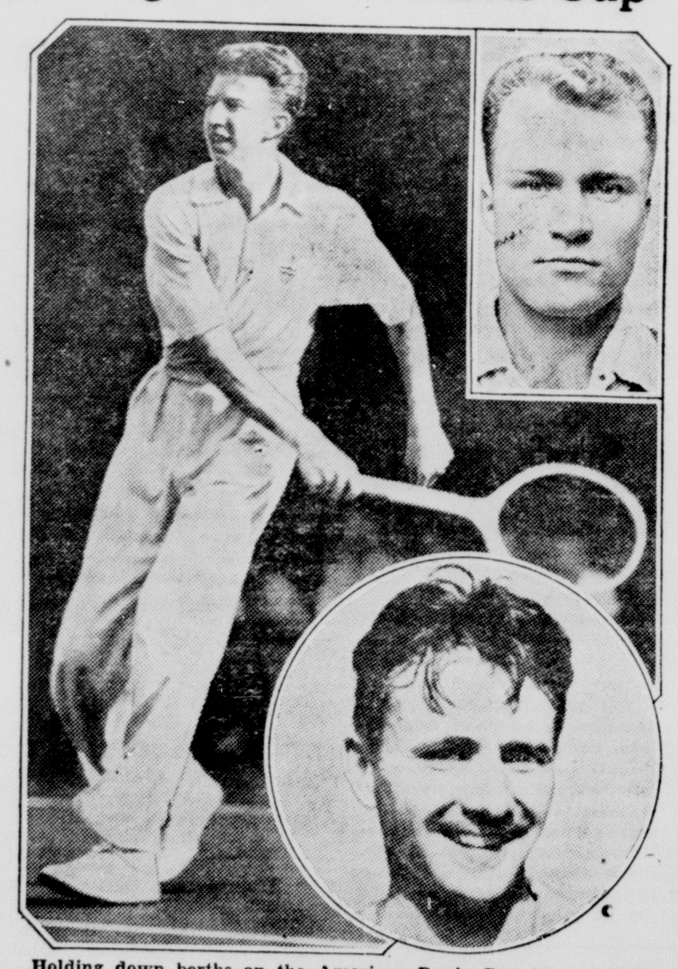
Don Budge is at the peak of his game. He is certain of winning at least one singles match and possibly two against any nation. The only man around capable of beating him is Gottfried von Cramm, considered by Continental observers to be the No. 1 tennis player of the world, now that Fred Perry is playing for money.

But, playing the way he did against the Australians, Budge is a good bet to whip the baron. Donald lost only one set (incidentally, the only set lost by the Americans) to the Australians and was coasting much of the time, at that.

Von Cramm had best look to his laurels when the Budge-led Americans arrive in Wimbledon next month for the inter-zone matches.

Even if von Cramm is Budge's master, Germany's chances of beating back the American challenge are most slim. The most von Cramm can do is win two matches. Budge is certain to whip Heinrich Henckel, von Cramm's running mate, in one singles match, and the dynamic Grant, maintaining his standard of play against the Australians, appears a sure winner against Henckel.

That would leave it up to the doubles team of Mako and Budge. Which is quite all right with American tennis enthusiasts. You couldn't place the cup in more capable hands.



Holding down berths on the American Davis Cup team are the three ace tennis stars above. In action is Donald Budge. Inset, top, is Gene Mako, and below, Bryan (Bitsy) Grant.

Top Form Boosts Hopes of U. S. Ryder Cup Team for Victory Over British

BY IRVING DIX

THIS year's U. S. Ryder Cup team members have high hopes of being the first visiting squad to win this prized international golfing event, which will be held at Southport and Ainsdale, June 29-30.

In the first place, the Americans will go into the matches much better groomed than the British.

The grueling P. G. A. competition over the hills and dales of the Field Club course at Pittsburgh, the heated 18-hole matches at the Inverness, and the recent 72-hole National Open grind have all served to get Uncle Samuel's golfing children in the best shape, physically and mentally, for the tilts with Britain's best professionals.

And, to be sure, the boat ride across should give them the proper rest at this point to prevent staleness.

* * *

AS regards competitive play leading up to these Ryder matches, the British pros are not as fortunate as the Americans. They have arranged for themselves a fair-to-middling tournament schedule but nothing that can compare with the steady, almost day-in-and-day-out, grind over here.

In the second place, this year's American Ryder Cup team seems to be just about the best in history.

Usually there are loud and bitter charges of politics in the selection of the Ryder Cup players, but no one can complain about this year's appointments.

Sharp-shooting Denny Shute, P. G. A. champion; brilliant Ralph Guldahl, National Open king; Swingin' Sammy Snead, Open runnerup; Byron Nelson, master of the Masters'; long-driving Ed Dudley; gallant Tony Manero; and the cagey veterans Gene Sarazen, Horton Smith, Henry Picard and Johnny Revolta, are a well-balanced team.

Lots of good golfers were passed up in selecting the team, but not better golfers. The boys chosen are the cream of the crop.

* * *

AS an added feature to this year's Ryder Cup matches America's professional champion, Denny Shute, is going to cross clubs with Henry Cotton, Britain's mighty monarch of the fairways, in a special match for the "world's professional golfing championship."

Four masters of the green are these above. Upper left, Byron Nelson; upper right, Sam Snead. Below, at left, Denny Shute, and right, Ralph Guldahl, winner of the National Open Golf Championship at Oakland Hills Club, Birmingham, Mich.

It is to be hoped that Shute's back, strained in the National Open, is strong and well again for this duel of the divots.

He'll need all his strength and then some to out-stroke Henry, who would be good enough to play on the American Ryder Cup team. That is more than you can say for a lot of his British teammates.

Along the Strike Front in the Battle of Steel

Tense picture was that along the steel front in seven states when workers in four of the nation's largest plants, Republic, Youngstown Sheet & Tube, Bethlehem and Inland struck, after managements had refused to negotiate signed contracts granting the C. I. O. exclusive bargaining rights. Violence flared at Monroe, Mich., upper left, when "citizen vigilantes" broke picket lines and burned picket shacks. Armed guards patrolled the highways, lower left, at Monroe when workers held a mass protest meeting, center, at which Homer Martin, head of the sympathizing U. A. W. spoke. Fighting leader of the steel campaign was Philip Murray, upper right, pictured as he addressed a meeting in Warren, O. Michigan had called out its national guardsmen, company planes flew food in to besieged workers in Republic plants and coal miners struck to shut off steel mill operation.

So minute is the fern spore that it is scarcely visible. Although the plants send off millions of these spores, comparatively few survive.

News in Canyon 25 Years Ago

(Taken from the files of the Randall County News of June 21 1912)

A very quiet wedding occurred at the Methodist parsonage Saturday afternoon at 4 o'clock when Miss Marie Rose Kleinschmidt and R. Elpenon Reynolds were united in marriage by Rev. F. M. Neal. The bride is the daughter of Mr. and Mrs. J. Barney Kleinschmidt and came to Canyon from Illinois about two years ago. Mr. Reynolds has lived in Canyon for a number of years. He is the son of Mr. and Mrs. George Reynolds and has been engaged in the grocery business with his father. Their business relations will continue as in the past.

The mist and cold north wind of Monday afternoon did not dampen the enthusiasm of the fat and the lean baseball teams which were scheduled for a five-inning battle. The fats were the winners by a score of 12 to 13, six innings being necessary to decide the winners. The fast work of Oscar Hunt on second, the star fielding of Tom Rowan in right and his wonderful steal home, L. L. Monroe's "punting" in center, John A. Wallace's two baggers, M. F. Slover's star work behind the bat all added to the interest of the game.

The following was the line-up of the teams:

FATS		LEANS
Doniphan	c	Luke
Hoover	p	Lair
Flesher	1b	Griffin
Hunt	2b	Stewart
Davis	3b	Phillips
Stratton	ss	Hutchings
Rowan	rf	Usery
Wallace	lf	Cleveland
Monroe	cf	Thacker
Slover	pt	Smith

schools improved, better buildings were being built. "The teachers colleges deserve more credit for improving standards in the schools of Texas than any other agency," stated Mr. Stuart.

The speaker praised the appropriation bill passed by the last legislature as it had been worked out on a scientific basis of attendance.

The teachers college furnish 43 percent of all graduates in all colleges of Texas at a total cost of 30 percent of the educational budget.

Graduate Work

The speaker discussed the recent movement to repeal graduate work in the teachers college, and how the issue had been met in the legislature. Mr. Stuart stated that the experience of the coming two years will reveal to the legislature the absolute necessity of graduate work.

The regents have adopted a 10-year plan of improvement in salaries, buildings and training school facilities.

Teacher training institutions should have as high standards as the colleges to train lawyers, doctors and students of other professions. Eight states now require master's degrees of all teachers; three European nations require doctor's degrees.

The public will be educated during this 10-year program to the work of the teachers colleges and the importance of these institutions.

Mr. Stuart predicted that a new library building for W. T. would be secured by the next session of the legislature. He highly praised the work which was being done to improve the campus.
